2 On 31 December 1939, over 5,000 kolkhoz members took part in the
3 inauguration of the Bol'shoy Ferganskiy Kanal im. Stalina, which issues
4 from the Naryn River at Uch-Kurgan. The Kuygan-Yarskaya Plotina, men-
5 tioned in connection with the Kara-Dar'ya River, is the largest construction

6 on the canal; the dam is adorned on both ends by huge statues of Lenin and
7 Stalin.
8 The chief engineer of the whole irrigation project was T. Mirzayev.
